

Mine Again

[Mariah Carey](#)

I remember when you used to be mine
Way back when, I was too naive to love you right
But now if I only had the opportunity
I would do anything because my heart still believes Maybe you could be mine again
Maybe we could make that dream for real
Like way back then, when love was yours and mine
Maybe we could bring it back to life It's irrelevant to dwell on the past
I'm accountable for what went bad
And I mean that, but I keep on praying for another chance
Just to have you back 'cause I've grown
And I know how to be your everything Maybe you could be mine again
Babe, we could make that dream for real
Like way back then, when love was yours and mine
Maybe we could bring it back to life No, no, it ain't over yet
I just can't accept the possibility
We were made for each other's arms
I know you're my destiny We can't erase what was meant to be
Part of you and part of me
If we try one more time
Maybe somehow we'll survive Maybe you could be mine again
Maybe we could make that dream for real
Like way back then, when love was yours and mine
Boy, maybe we could bring it back Maybe we could bring it back
Maybe we could bring it back to life
Maybe you could be mine
