The Cootees

Advisory - the following lyrics contain explicit language:

Can't believe what you see with your eyes
the disguise thats put on
when you look at her from far away
and she looks good when you're just driving by
then I cry when I notice up close she don't look the same
so just be careful about what you see
Don't believe anything until you get a second look
and jsut make sure that you always check out the bait
before you take the hook yeah.
Distance distortion factor its not a pretty sight Lets go
DDF it makes a great difference to me
you gotta make sure you know exactly what you see
DDF you can't just look passing by
You never know it might turn out to be a guy
DDF its just so hard to decide
Whats wrong from far away and wht is right
DDF it makes a great difference to me
You gotta know what you see now
