

I Feel You

All Saints

Fortunately I've been blessed
Blessed with love and happiness
Who'd have known a soul so
Pure could reach and save my loneliness
When I think that
Day to day I live a life so full of complications
So put by the thought of lies and the tribulations
But I just smile at the thought of you, by my side
And everyday my hopes evolve when I see you
And all around, my world is whole
I've no need to be insecure, I'm self-assured
Every time I feel you, I feel you
People fall and lose their way
Because of you I know, I'll stay
Guided by our love
I'll always have a reason to pave our way
Never give up on your lovin'
You're the one that keeps my heart growin'
Never give up on your lovin'
You're the one that keeps my heart growin', growin'
Day to day I live a life so full of complications
So put by the thought of lies and the tribulations
But I just smile at the thought of you, by my side
And everyday my hopes evolve when I see you
And all around, my world is whole
I've no need to be insecure, I'm self-assured
Every time I feel you, I feel you
And everyday my hopes evolve when I see you
And all around, my world is whole
I've no need to be insecure, I'm self-assured
Every time I feel you, I feel you
Never give up on your lovin'
You're the one that keeps my heart growin'
Never give up on your lovin'
You're the one that keeps my heart growin', growin'
Never give up on your lovin'
You're the one that keeps my heart growin', growin'
Never give up on your lovin'
You're the one that keeps my heart growin', growin'
And everyday my hopes evolve when I see you
And all around, my world is whole
I've no need to be insecure, I'm self-assured
Every time I feel you, I feel you
And everyday my hopes evolve when I see you
And all around, my world is whole
I've no need to be insecure, I'm self-assured
Every time I feel you, I feel you
