World Aflame

Silent Force

Are you there before me
Placed so hard to find
Or is it just a figment of my mind
Why did you try and destroy me
Is that the way it goes?
I don' think I will ever be the sameEven your eyes-it seems to you is justified
Even I despise-you don't even try to hide
Your face, as you walk, thru the crowd, believing your:Evil:You set my world aflame
I hope that someday you feel the same
You two you look, perfect in love
Evil:You set my world aflame
I wish that someday you'd feel the same
You two you look, perfect in lovePlayed me like a fool
Right before my eyes
Took my heart and crushed me till I cried
