

# Dying Embers

## To Die For/To Die For/To Die For

It's the hour of fading light  
Embers of my life  
Save me from myself  
You touched the fire  
And took it out of me  
The flame is gone for all eternity  
Nothing can hurt me  
I'm safe within your grace  
Whatever comes our way  
You will protect me  
You gave me something  
More precious than this life  
You touched the fire  
And took it out of me  
After all I still believe  
In life and blood relation  
I know I'm drained of both  
Now it's all the same to me  
I'm safe in isolation  
Surrounded by your love  
With a silent whisper  
You came from the dark  
Left me with splinters  
Of my shattered heart
