Find Me

Curbside

I've looked high and low
I've searched near and far
And after all this time
Still I don't know where you are
I've done all I know to do
So girl, I guess it's up to you
To find me
Baby I've been waiting
And everyday I'm praying
You'll find me
Lost in all this lonely
Longing for you only baby please, find me
At least a thousand times
I've seen you in my dreams
Standing there alone
Just barely out of reach
But in the early morning light
I wake up again and cry
Find me
Baby I've been waiting
And everyday I'm praying
You'll find me
Lost in all this lonely
Longing for you only baby please, find me
Find me
Find me
Baby I've been waiting
And everyday I'm praying
You'll find me
Lost in all this lonely
And longing for you only baby please, find me
Find me, ohh find me
