Captain Hook

Eugene Chadbourne

She looks at me and my world stops
I've got to let her know before she has to go
And I hope she does not confront me
'Cause I might never find the words I've got in mind
And I don't know, no I don't know what to say when I'm around you
And I, I don't know just what to do
You must know the way I feel by the way I'm acting, yeah
You know I'm so crazy, I'm so crazy about you
She tries to catch me, I wont stop
She grabs me by the hand, well I knew she'd understand
And she kisses me and my heart stops
She asks me if I dance and I said I love the chance
And I don't know, no I don't know what to say when I'm around you
And I, I don't know just what to do, yeah
You must know the way I feel by the way I'm acting, yeah
You know I'm so crazy, I'm so crazy about you
She tells me that I am the one that she's been looking for
I only hope that it is true
And if I tell her that her image never leaves my mind
Will she say she loves me too?
She looks at me and my world stops
I've got to let her know before she has to go
And I hope she does not confront me
'Cause I might never find the words I've got in mind
And I don't know, no I don't know what to say when I'm around you
And I, I don't know just what to do, yeah
You must know the way I feel by the way I'm acting, yeah
You know I'm so crazy, I'm so crazy about you
