These Things

Looper

These things I've found,
This girl,
These sounds,These days are alright,
These days,
These nights.These things almost make me smile,
These things almost make me smile,
These things,
Almost make me smile.These walks in this town,
These things,
I've found,And this girl, she's alright
For these days
And these nights.These things almost make me smile,
These things almost make me smile,
These things
Almost make me smile.Seinfeld, and IQU,
New York
And Beck too,South Park, and space men,
And this girl
Who's my friend.These things almost make me smile,
These things almost make me smile,
These things
Almost make me smile.
