The Shallow End

Sam Sparro

They say we're shallow and maybe they're right.
I've always wanted a beautiful life.
But if you can swim in the shallow end,
You'll be alright.
Yeah, you'll be alright.
They say we're crazy and yeah that's probably true,
If crazy means to do what you wanna do.
But please don't you forget that the crazy people need love too.
Yes, we need love too!
We love this place, we love it.
Nothing you could say to make us change our mind.
Never seen what they've got and believe it or not
I never thought life
We love this place, we love it.
Nothing you could say to make us change our view.
Never been far away but no I never stopped.
I always come back home to you.
We operate at a slower pace,
We never run in the rat race (not me)

We get the job done while we have a little fun in the sun
Cause not everybody here has clearly even got what it takes
No no no, what it takes!
We love this place, we love it.
Nothing you could say to make us change our mind.
Never seen what they've got and believe it or not
I never thought life
We love this place, we love it.
Nothing you could say to make us change our view.
Never been far away but no I never stopped.
I always come back home to you.
We love this place, we love it.
There's nothing you could say to make us change our mind.
Never seen what they've got and believe it or not
I never thought life (?)
We love this place, we love it.
Nothing you could say to make us change our view.
Never been far away but no I never stopped.
I always come back home to you.
