

# What Is Love?

Peter Andre

Maybe I am foolishly in love with someone that is  
Not exactly on the same page, that I am on  
Well all my friends keep telling me stop walking round so blindly  
But when he calls they're not around to ever remind me Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way I guess I kind of notice he don't always act so  
kindly  
But that doesn't stop my hunger, hunger for his heart  
Why should I listen to those, who think that I should move on  
Maybe what they see as drama, I see more as art Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way Can't seem to get past how he makes me feel  
May not be love but it feels so real  
Can't go with what they say must follow my heart  
But now is that even being to to me Maybe I'm happy, truly content  
Maybe this is as good as it gets  
Do I have faith in my confidence  
Or an I just thinking all hopelessly Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way Maybe this isn't love  
But if it isn't love then really what is love  
Maybe I don't need to know what's really love  
'Cause when he's around he's got me feeling some kinda way
