

Sea Breezes

Roxy Music

I've been thinking now for a long time
How to go my own separate way
It's a shame to think about yesterday
It's a shame, a shame, a shame, a shame We've been running round in our present state
Hoping help will come from above
But even angels there make the same mistakes
In love, in love, in love, in love Now that we are lonely
Life seems to get hard
Alone, what a world lonely
Alone, it makes me cry Thought-train set in motion
Wheels in and around
Express our emotion
Tracks up then it cracks down, down, down, down Now that we are lonely
Life seems to get hard
Alone, what a world lonely
Alone, it makes me cry
I cry, I cry, I cry We've been running round in our present state
Hoping help will come from above
But even angels there make the same mistakes
In love, in love, in love, in love
