Follow You

Violet Sunset

Today our destiny is more than clear,
I follow you, running out of here,
world is a mystery, is our desire
to see the wonders of all time,
this feelingâ€™s growing, burning like the fire,
can you feel the beat? can you feel the beat?

Hold my hand and Iâ€™m gonna be in you way, (Iâ€™m gonna be in you way)
â€˜cause nothingâ€™s gonna change my mind,
you can see the light deep inside yourself, (deep inside yourself)
â€˜cause nothingâ€™s gonna break us down.

I follow you, running out of here to find another way,
I feel our souls, through your eyes I see the future coming,
A revelation showed me that this is our plan and nothing else,
Iâ€™ll never let you down, call out my name, Iâ€™ll be there for you.

I follow you, running out of here to find another way,
I feel our souls, through your eyes I see the future coming,
Iâ€™ll never let you down, call out my name and Iâ€™ll be there for you.

Hold my hand and Iâ€™m gonna be in you way, (Iâ€™m gonna be in you way)
â€˜cause nothingâ€™s gonna change my mind,
you can see the light deep inside yourself, (deep inside yourself)
â€˜cause nothingâ€™s gonna break us down.
