

Growin' Younger

Randy Houser

Time goes by, you can't get it back
It's a one way ride, you gotta make it last
Ain't nobody got no plans to settle down
All we're thinking 'bout is right here and right now

[Chorus]

We got our hands up rocking like a boat
Rolling with the flow
Poppin' like the Fourth of July
So drink it all up every little sip taste it on your lips
Every single drop of life
We're gonna live this never ending summer
Like we're just growin' younger

Today don't care, if we stay out all night, ah it don't
Let down your hair, honey it's all gonna be alright
Ain't nobody here to tell us what to do
Ain't no stopping, baby you got me and I got you

We got our hands up rocking like a boat
Rolling with the flow
Poppin' like the Fourth of July
So drink it all up every little sip taste it on your lips
Every single drop of life
We're gonna live this never ending summer
Like we're just growin' younger

Come on, come on now
We gotta live it up
Never going down

We got our hands up rocking like a boat
Rolling with the flow
Poppin' like the Fourth of July, that's right
So drink it all up every little sip taste it on your lips
Every single drop of life

We got our hands up rocking like a boat
Rolling with the flow
Poppin' like the Fourth of July

So drink it all up every little sip, taste it on your lips
Every single drop of life
We're gonna live this never ending summer
Yeah we're gonna live this never ending summer
Like we're just growin' younger

We're just growin' younger
Just growin' younger
We gonna live it up
