

I Still Love You

[Ann Peebles](#)

Baby, I'm feeling
Sort of lonely
I heard the news today
Somebody told me
That you were leaving
And I just you up called to say, I
I still, love you I love you baby I know you won't believe me
When I say
For another chance, I'll make it up to you baby
Don't give me up, no
Don't throw in the towel
'Cause I just want you to know, I still
I still love you I love you, baby I know I'm guilty
Just like you said
But baby, oh, baby don't
Don't throw our love away oh They say love is better
Second time around
But I don't believe in taking chances
Your love is sweeter
Than any love I've found
And I just wanna call you up and say I love you, I love you, baby
I love you tomorrow, just like I did today
Oh, lord, I love you, I love you, lord, baby, I love you, oh
Ooh, you my daily throb and my midnight dream
