Mutiny

Blood Label

Fuck the memories.
Weâ€™re dead at every turn.
So spin your fucking shit and weâ€™ll die with every twist of tongue.
Your hollow gaze has shifted past my eyes.
Another dead face fades away.
Now whatâ€™s left to take?
Another day I regret your memory.
In my mind you will never be more that this.

So whatâ€™s left to fucking take?
Now my trust is gone.
As your world comes crashing down Iâ€™m going to watch it fucking burn.
Everything we had lies in pieces.
Everything we had fucking dies... tonight.
Through those deceiving eyes Iâ€™ve seen the blackest heart.
The blackest heart.
Everything you love fucking dies tonight.
