

# Jaundiced Eye

**NOFX**

Black is so beautiful, white is so pure  
Can you see a difference? All I see's a blur  
Is one color a virtue? How can you be sure?  
Ignorance the disease, education the cure  
So, how can you say that you're proud of your race?  
Proud of your tenure, proud of your faith  
Fascism, racism starts out the same  
Stop feeding the fire, I'll put out the flame  
Some people smarter than others so dumb  
The reason behind is a cultural one  
And greatness, it isn't carried by blood  
Get off your high horse, you're no better than us  
You got the jaundiced eye, you can't deny  
All seems infected that the infected spy  
As all looks yellow to the jaundiced eye  
You're the infected, you can never deny  
You're arrogant, you're ignorant, living a lie
