Shoot To Kill

Cage

[Music: Eric Horton]
[Lyrics: Sean Peck]We ofter education
We're seeking fertile minds
Come and serve your nationShoot to kill your victim
Fire at will
Fire at will they say
Shoot to kill
It's a killing system
Blood will spillYou travel Such great distances as diplomats deploy
And in many instances your ordered to destroyShoot to kill your victim
Fire at will
Fire at will they say
Shoot to kill
It's a killing system
Blood will spillYou'll sacrifice your life
A germ a bomb or just a knife
You'll battle without fear
Dark intentions led you here
Take the land by force
Objectives just aren't clear of course
They never are in war
A constant ROARShoot to kill
Fire at will
Shoot to kill
Blood will spillThey've programmed your mind so you won't disobey
They tell you it's safe but make you lead the way
Political Idiots blocking your goal
Just push a botton and sieze all controlShoot to kill your victim
Fire at will
Fire at will they say
Shoot to kill
It's a killing system
Blood will spill
