

Shoot To Kill

Cage

[Music: Eric Horton]

[Lyrics: Sean Peck]We offer education

We're seeking fertile minds

Come and serve your nationShoot to kill your victim

Fire at will

Fire at will they say

Shoot to kill

It's a killing system

Blood will spillYou travel Such great distances as diplomats deploy
And in many instances your ordered to destroyShoot to kill your victim

Fire at will

Fire at will they say

Shoot to kill

It's a killing system

Blood will spillYou'll sacrifice your life

A germ a bomb or just a knife

You'll battle without fear

Dark intentions led you here

Take the land by force

Objectives just aren't clear of course

They never are in war

A constant ROARShoot to kill

Fire at will

Shoot to kill

Blood will spillThey've programmed your mind so you won't disobey

They tell you it's safe but make you lead the way

Political Idiots blocking your goal

Just push a button and seize all controlShoot to kill your victim

Fire at will

Fire at will they say

Shoot to kill

It's a killing system

Blood will spill
