23

Amber Rubarth

He fell in love with me, then I fell in love with you
And now I am watching you follow her out the door
Of my house, and it feels so mean
I didnt know youd moved on to another heart
While I was picking mine up with its broken parts
I did it to him, you did it to me
Shell do it to you cause were 23 years old
And thats what we do when were 23And I still remember watching you in November
Like a Hollywood movie on the silver screen
And you looked so good in 2-D
That I fell blindly for you like hed fallen for me
And I recognized the same look in your eye yesterday
As you watched her through your camera with the split-second delay
I did it to him, you did it to me
Youre next on the list cause shes 23 years old
And thats what we do when were 23And I wouldnt take it back cause now I know more about me
But I shouldve had a laugh earlier cause its pretty silly
How we slide along the winning edge and the losing edge and the middle
And we dance around and poke ourselves on this love triangle
I did it to him, you did it to me
Shes doing it to you, we should start dating people that are 30 at least
Cause thats what we do when were 23 years old
And thats only half of the stupid stuff we do when were 23 years old
And thats what we do when were 23
