

# Free Again

Robert Pete Williams

We, are we out of our minds?  
We can't live this way forever, forever  
So run, run with me from the ordinary  
It's our time to escape, lose ourselves  
If we can find a way to break this chain  
    Within the natural cycle  
    Leave your answers behind  
    We'll be there to decide  
    If we can find the strength  
To go our own way, to go our own way  
    It will take your breath away  
    Will take your breath away  
    We, are we out of our minds?  
We can't live this way forever, forever  
So run, run with me from the ordinary  
Come on, it's our time to escape, lose ourselves  
We finally found a way to make the change  
    We'll make the change together  
    Old ways left behind  
    Chains will loosen over time  
    We finally found the strength  
To go our own way, to go our own way  
    No longer are we confined  
    The power of resolution shines  
    Now we are free again  
    We are free again  
    We are free again  
    Do I have your attention?  
    Look what we can create  
    It will take your breath away  
    Will take your breath away, away  
    Do I have your attention?  
    Now's our time to escape  
Found the strength to go our own way  
    Now we are free again  
    We are free again, again  
    Now we are free again  
We are free again, again, again  
    We are free again
