

Wrong Way

Over It

Wrong way on a one way
Street lights luminate this night
When we're here side by side
Each moment breathes new life
So get right, all that you like
'Cause I know we share more than smiles
And all this down-time gives us reason to confide
Everything I can fit onto one line
Watch the sun set over wasted time
Wish upon a California sky
I think you know this time
I'm through with wasted time
And it may take one last night
What goes around comes back again in time
Should I whisper our secret?
It ain't hard to see, your heart would know
It's never easy to forget mistakes
And afford some room to grow
