

# Heart It Races (Architecture in Helsinki)

## Dr. Dog

And we're slow to acknowledge the knots in our laces  
Heart it races And we go back to where we moved out to the places  
Heart it races I bought it in a can and stirred it with my fingers  
Singin' boom da da da da da boom dat dat da da  
Threw it out the window  
Lately you've been tan, suspicious for the winter  
With your boom da da da da da boom dat dat da da da  
Legs like little splinters Legs like little splinters And we're slow to acknowledge the knots in our laces  
Heart it races And we go back to where we moved out to the places  
Heart it races I sold it to a man and threw him out that window  
He went boom da da da da da boom dat dat da da da  
Made his wife a widow Heart it races alone  
Heart it races alone  
Heart it races alone...[repeats]  
Made his wife a widow  
Heart it races alone  
Heart it races alone  
Heart it races alooonee Legs like little spiders  
Legs like little spiders  
Boom da da da da da boom dat dat da da da  
Boom da da da da da boom dat dat da da da  
Boom da da da da da boom dat dat da da da  
[repeats]
