

# He Loves Me

## Sweetbox

Let me be the one to tell you first  
You got it going on everyday  
In the middle of the backseat  
Freakin' to the fat beats  
Everybody's watchin' me just to see  
What's it gonna be  
You lovin her or me  
Oh baby, can't you see  
I be's your fantasy  
I give you what you need, indeed  
I'm nice I be that seven on the dice  
Do me right and say you love for life  
But tonight let's take it slow  
And let our feelings go  
We both know that in time  
I'll be yours, you'll be mine  
So no more cires, no lies for the faithfull eyes  
And no more tears, no more fears, my dear  
'Cause I know you care[Chorus X2]  
He loves me, he loves me not [x2]  
The day will come, so tell me now.  
If you love me, then show me how.Because of you I know our love is destiny  
We got it goin' on  
The best of the best  
In this game of life we live on love escapes  
No mistakes, I love to love you and  
I like it when you say my name  
'Cause in my dreams it seems to never have an end  
I feel the topuch of love from you within  
My skin and every time we kiss  
Ooh, dizzy me, you can't imagine  
What your love does to me.[Chorus X2]  
Let me be the one to love you for a lifetime  
Close your eyes and letme take you on a natural high  
Untie the doubt my love will never sell you out  
Just show me love and let me know what you're about  
Sometimes I know it's rough  
Sometimes I know it's tough  
Sometimes I know I love you it just ain't enough

But never give it up until it's what you wanna do  
I see the greatest gift of love is that you love me too.
