

Hesitated (feat. Gabi Kennific)

Minority 905

Verse 1

Beautiful, who knew the first would be the last
Time I'd get to talk to you?
And why did it have, to end so fast
Now I'm stuck living in the past

I didn't know how you'd feel about me
I was afraid and now I'll never know

Chorus:

'Cause I hesitated and now I'm left with
All these words I should've said
There's nothing I can do but choke on them
And live with this regret
Just praying I'll see you one day

Verse 2:

How can I, just miss someone
I never even got to know
'Cause I was sure I'd see you around
But with my luck I find I'm never right
Now I, I
Have to live with this scar in my heart

[Chorus]

Bridge:

You're the voice inside my head
Over and over again
You're the shadow still haunting me

[Gabi Kennific]

Do you only miss me now I'm gone
Am I the reason that you're all alone
Why didn't you do anything
If I meant everything to you
And maybe you'll see me one day
With someone else you should've been
And I, I

Never think of you

You hesitated and now you're left with
All these words you should've said
There's nothing you can do but choke on them
And live with this regret
Just praying you'll see me one day

[Chorus]

Outro:

I,I never think of you
But I, I always think of you
