

All I Need

Blue Six

You never have to lie
Don't build a wall and hide behind it
Let's see what we can find
Let me show you what I like Don't waste another night
Let's build a dream and live inside it
Don't be afraid to fly
Baby, show me what you like All I want, baby
All I need, angel
All I fear, sugar
All I need, baby I want us to be right
To have our hearts both come alive here
I pray our dreams survive
Baby, give your love tonight All I want, baby
(Is to have enough)
All I need, angel
(Is someone to trust) All I fear, sugar
(Is to care too much)
All I need, baby
(Is to know I'm loved) All I want, baby
(Is to have enough)
All I need, angel
(Is someone to trust) All I fear, sugar
(Is to care too much)
All I need, baby
(Is to know I'm loved) All I want, baby
(Is to have enough)
All I need, angel
(Is someone to trust) All I fear, sugar
(Is to care too much)
All I need, baby
(Is to know I'm loved) All I want, baby
(Is to have enough)
All I need, angel
(Is someone to trust) All I fear, sugar
(Is to care too much)
All I need, baby
(Is to know I'm loved)
