

No Win Situation (Acoustic)

Honor Society

I was out with the guys just the other
We were playing some pool, trying to have a good time
Chalking my cue, lining up to shoot
But I felt a hand on my shoulder, turned around it was you
Started talking to me all conspicuously
And I was wondering why
Said you want to talk outside
Can you give me a little time?
And there's been something that's been weighing on your mind
She said, I know he's your best friend
But you're the one I wanted
Then she reached for my hand and I started to lose control
We both care about him
So how could we be so careless?
It's a no win situation, either way we're gonna lose
It's a no win situation, falling in love with you
I remember that first time we ever met
You were wearing your low rise and tight little hoodie
I was such a goody-goody
Missed the opportunity, baby
My friend asked you to dance
Now I'm standing on the side
Thinking you should've been mine
Then you turned to me and said,
I wish it was you that night
She said, I know he's your best friend
But you're the one I wanted
Then she reached for my hand and I started to lose control
We both care about him
So how could we be so careless?
It's a no win situation, either way we're gonna lose
It's a no win situation, falling in love with you
I know it seems like it's easy to say
That you'd never do this to a friend
But she might be the one for me
And it would kill me to let her go again
She said, he's your best friend
But you're the one I wanted
We both care about him
It's a no win situation, either way we're gonna lose
She said, I know he's your best friend
But you're the one I wanted
Then she reached for my hand and I started to lose control
We both care about him
So how could we be so careless?

It's a no win situation, either way we're gonna lose
This is a no win situation, falling in love with you
