

# Fresh New Start (feat. Seb Kedziora)

## Phil Ber

[Verse]

welcome to our fight night  
another day in paradise  
we argue over the petty slights  
it gives us the hope we're still alive we're suffering a slow decline  
nothing I do can set it right  
you twist my words to sound like swine  
the saga continues without respit how'd we come this far? [Chorus]  
it's time to make a fresh new start  
find us the space to grow, apart  
maybe I've lost my mind  
in crashing down from cloud nine  
it's time to make a fresh new start [Verse]  
your larger than life personality  
sucks up the positive energy  
it makes it so hard to breath  
it suffocates the bonds we keep the wounds inflicted cut so deep  
we're held together by false beliefs  
afraid to stand on our own two feet  
a broken record stuck on repeat how did we come this far? [Chorus]  
it's time to make a fresh new start  
find us the space to grow, apart  
maybe I've lost my mind  
but freedom tastes so divine  
it's time to make a fresh new start it's time to make a fresh new start  
find us the space to grow, apart  
yeah, I think you'll survive  
words won't change my mind  
it's time to make a fresh new start [Bridge]  
you never thought I would wake  
you always thought I would stay you never thought I would wake  
blind to your mistakes  
you never thought I'd find out  
your Mona Lisa image is a fake you never thought I would wake  
your picture perfect world is about to break [Chorus]  
it's time to make a fresh new start  
find us the space to grow, apart  
maybe I've lost my mind  
in crashing down from cloud nine

it's time to make a fresh new start  
don't beg me  
don't say oh please  
if you leave, you're the fool  
yeah, I think you'll survive  
words won't change my mind  
it's time to make a fresh new start
