Left To Rot

Hypocrisy

Evolved in darkness, you'll never believe
A ritual of evil, to conquer your dreams
I sacrifice the unborn baby, in spite of the altar
I'll put the curse on you, to show you my powerDie for me in hell
So I can get rid of your smellYeahFires will fall from the sky
Your love will turn to hate
No more lies
You'll never see the light of dayDie
You must payGive me your hands
I cut them off
Mortuaries standing
So uniformYou start your crying
I steal your tears
You liar
I am your fearDie
You must payI'll drag you down in hell
Show you what you are
I'll steal your soul
And forever you will burn in hell
