Music4U

We dont wanna
we dont wanna
we dont wanna neva end
we dont wanna
we dont wanna neva end
we dont wanna
we dont wanna neva end
we dont wanna neva
Chorus:
We dont wanna neva end
Its like our life has just began
you walkin out you coming back again
Cause we became the best of friends
You got all the questions and i know all the answers
I done took your heart girl and hold it up for ransom
We dont wanna neva end
we dont wanna
we dont wanna neva end
we dont wanna
Verse 1:
i can tell you was into me
from our instant chemistry
as i reflect imagery
you ride or you die for me
I go to war over you
dont give a fuck bout showin u
you know what it is shawty
forever my lil shawty
As im swimmin in benjamins
you shop with no limits
You reminous ever section
Love know you come back again
i know you couldnt breathe without me
you gone need your oxygen
i damn near gave you an overdose off my own medicine
i took a sip of your tea and i aint been rite every since
as i think to myself what it would be, if its heaven sent
lets put the past behind us
and go far away where nobody can find us

Chorus:
We dont wanna neva end
Its like our life has just began
you walkin out you coming back again
Cause we became the best of friends
You got all the questions and i know all the answers
I done took your heart girl and hold it up for ransom
We dont wanna neva end
we dont wanna
we dont wanna neva end
we dont wannaVerse 2:
You can leave today i bet you coming back tomorrow
i can see the hating coming from, a mile up
and its only preparing us for what we got coming
if a day come you wait and you feel like running
Run in my direction and dont you run from me
Cause anytime we get together, we gone stuntin
And im applying major pressure, you feel it in your stomache
Its lightning, its thundering, it is strightening. got me wondering
butterflies butterflies
wen you gone ever leave
anytime you leave my side
I know you coming back, i know you coming back to me
Chorus:
We dont wanna neva end
Its like our life has just began
you walkin out you coming back again
Cause we became the best of friends
You got all the questions and i know all the answer
I done took your heart girl and hold it up for ransom
We dont wanna neva end
we dont wanna
we dont wanna neva end
we dont wanna
Bridge:
is there anything you wanna know
is there any place you rather be
you can walk until your feet get sore
But i bet you walking back, i bet you walking back to me
Actually thats a guarantee
Our friendship a guarantee
You got my ego and i know the league
i aint trynna be cocky
i got your heart in my pocket
Chorus:

We dont wanna neva end
Its like our life has just began
you walkin out you coming back again
Cause we became the best of friends
You got all the questions and i know all the answers
I done took your heart girl and hold it up for randsom
We dont wanna neva end
we dont wanna
we dont wanna neva end
we dont wanna
