Here We Are

Creeper Lagoon

So long to the life you always knew
Was never meant to be
Throw out a kiss and relax
You're growing away from meDance while the music's on
And the summer days grow long
Take my hand you are lost
'Cos soon you will be foundHere we are, come down
Spend some time away
Here we are, come down
You're so fine that way with meThe captain's drinking port
And he's sorry to report
The engine's slowing down
Yeah we're all going to drownI think I see the light
Love will make you right
Pull up your head and instead
Let's waltz into the nightHere we are, come down
Spend some time away
Here we are, come down
You're so fine that way
Spend some time away
Some time away with meHere we are, come down
Here we are, come down
Here we are, come down
...
