

I Know the Law

Wye Oak

In order
To preserve the myth
I will answer
According to it
I speak
In its passages
And it keeps me
Safe in my skin
In order,
To preserve the myth
I will answer
From inside of it
And in this life
See this truth that I cannot deliver
But you are waiting for
It is already lost
In order
To preserve this life
I have given my life
President over yours
For love, fully aware
And deserving of no reward
And even so, it is still together or apart
Light a little fire
So you can feed it in the dark
But...

I know, I know, I know, I know, I know, I know the law (x10)
