Running Away

Elliot Minor

My stomach is sore, don't joke anymore,
You trear me like a friend, I'm starting to feeling,
You're staying for real, but you're leaving, now I'm...Drowning out, I feel like passing out,
The music's louder now, so you can see...Stop running awayt, stop running away,
Can you see, can you see,
That I'm falling too deep, I'm falling too deep,
Please come back where you belong,Stop running awayt, stop running away,
Can you see, can you see,
That I'm falling too deep, I'm falling too deep,
Please come back where you belong,Escape with a smile, it took you a while,
You're bored and lost I'm sure, you said move along,
And you hare all out songs, you're gone and now I'm...Drowning out, I feel like passing out,
The music's louder now, so you can see...Stop running awayt, stop running away,
Can you see, can you see,
That I'm falling too deep, I'm falling too deep,
Please come back where you belong,Stop running awayt, stop running away,
Can you see, can you see,
That I'm falling too deep, I'm falling too deep,
Please come back where you belong,Drowning out, passing out, the music's louder now,
So you can see...So you can see...Stop running awayt, stop running away,
Can you see, can you see,
That I'm falling too deep, I'm falling too deep,
Please come back where you belong,Stop running awayt, stop running away,
Can you see, can you see,
That I'm falling too deep, I'm falling too deep,
Please come back where you belong,
