

Willin' to Walk

Radney Foster

I'm willin' to walk the floor
Cry, beg and crawl down on my knees
But if you can't see I need your love
Not your sympathy, then I'm willin' to walk away and set you free
Lately I've been just a little too far down
On that list of priorities you carry around
I don't need no lip service, those kisses just won't do
I need every little piece of your heart and every bit of you
Cause I'm willin' to walk the floor
Cry, beg and crawl down on my knees
But if you can't see I need your love
And not your sympathy, then I'm willin' to walk away and set you free
Lately, I'm not sure what's come
between us
But darlin' why let foolish pride defeat us
If you give me an inch then I'll walk that mile for you
And we can heal up all of this pain before we're through
