Been There

Icon of Coil

Been there, way far
Done that, done thatI am the wayform
Been there done that
I chopped off your head and put it in a jar
So only I could see how beautiful you are
I burned your body so you can get some rest
Been there, done thatI keep your hands with me wherever I go
After all you offered me a hand
Been there, done thatI am the wayform
Been there, done that
I am...been there...wayform...done thatDo you feel
What I feel?
Been there, done thatI keep your hands with me wherever I go
After all you offered me a hand
Do you feel what I feel?
Been there, done that.
