Leaving Only Scars (Radio Edit #1)

Systematic

So... Do you feel what I feel when it all comes down?
I feel it in your eyes.
Throw. Throw me a line so that I won't drown.
The shore just seems too far.Another callous on my heart.
NOOO. There's no way to stop,
the sting inside when it comes apart.
I realize who we are.
NOOO . No matter where it stops.
The broken pieces cut my hands.
Leaving only scars.We pretend we've got this all figured out.
Not as selfish as we are.
So... Clear the dust off my soul as I fade out.
You knew I wouldn't be here long.Another callous on my heart.
NOOO. There's no way to stop,
the sting inside when it comes apart.
I realize who we are.
NOOO . No matter where it stops.
The broken pieces cut my hands.
Leaving only scars.And I didn't want to lose ,
or hope to understand.
I fell right through your hands.Now there's nothing left to lose.
My life crumbles in your hands.
I live it over and over again.There's no way to stop,
the sting inside when it comes apart.
I realize who we are.
NOOO. No matter where it stops.
The broken pieces cut my hands.
Leaving only scars.NOOO. There's no way to stop,
the sting inside when it comes apart.
I realize who we are.Leaving only scars.
Leaving only scars.
