You See The Trouble With Me

Barry White

I'm like a blind man who lost his way
I can't see nothin'
I'm like a deaf man who can't relay
Yeah, I can't hear nothin'
You see the trouble with me
I can't do nothin' without my baby
And as plain as can be
It's gonna drive me crazy
I walk the lonely streets late at night
Cold and lonely
Everything I do is wrong, never right
I'm lonely for her only
See the trouble with me
I can't do nothin' without my baby
And as plain as can be
It's gonna drive me crazy
See the trouble with me
I can't do nothin' without my baby
And as plain as can be, what do I do?
It's gonna drive me crazy
See the trouble with me
I can't do nothin' without my baby
And as plain as can be, what do I do?
It's gonna drive me crazy
See the trouble with me
I can't do nothin' without my baby
And as plain as can be
It's gonna drive me crazy
