

# Strange As Family

## Wrens

strange as family

I think that it started it faded from memory placed with mittens - why?

should I listen in now she has gone

comes a courting comes a calling no explanation

he is different he is Asian brings me humid - why?

I 'm spoken for I 'm kitchened

he is unwelcome he is unwelcome

makes note of my towels, my blankets, my flowers

I don 't think I 'm ultra act

plants and water flow by flow sleep me box me glow glow glow

I know the coming things oh please

peace be with you

a line from the masses said as Johnny passes

ten years coasting why? I 'm ripened up I 'm injured

lifted early fixed above us keeping a promise to name you among us why?

the johns the greater go? and the most vivid things
