

If You Could Only See Your Eyes

[Alice Peacock](#)

This is simple This is basic
There's no need to complicate it
You're beautiful and I love you
And if I live for 10 forevers
Here's a moment I'll remember
Just watching you in this crowded room
If you could only see your eyes
You'd be amazed just how you shine

How you shine

This is perfect This is easy
This is falling more than deeply
More than true - it's all for you

[Chorus]

No one else can see through me
And see the heart that your heart sees

This is perfect This is basic
Words would only complicate it
You're beautiful and I love you
So beautiful and I love you
