

Run Through

Denali

What wakes you up
when it's worth the time
Who has the right
there's one power
I've had enough
Find in you so sour
Soon i'll give up
Fool it's a total low
How can i explain another daylight
Nothing's right in these arms
This cannot explain another daylight
So i'll go at it alone
Take all the rough
Sounds like more of the same
I've had enough
Movement is hard in this game
How can i explain another daylight
Nothing's right in these arms
This cannot explain another daylight
So i'll go at it alone
Time is up
Why with all of this
