

Double Up

R. Kelly

Alright, now we got that out the way, lets double up! Its your boyfriend, look here, we in the club!

An you tryin to decide whether you gon leave with me

And you dont know because you got your girl witchu

Bring er witchu, bring er witchu!

I got a place, she can stay at my crib, lets go Step up out the club with a dizzy head

I got two chicks both got dizzy legs

Im bout to double up

You know Im bout to double up Hop off in that Phantom with the doors suicide

I got a freak in the front and a freak in the back

Im bout to double up

An you know Im bout to double up, double up I fall through the spot, Kells on the prow!

I see these honeys an they dancin all wild

All up on each other, winding, real freaky

Im plottin' how I'm gonna take em home with me Maybe your cousin, maybe your girlfriend

I just wanna get em both up outta here

Fast as I can on them dubs to the crib

Start off in my game room, pop a lil bub And have em dance for me like they danced in the club

Ooh, they so freaky an' both of em want me

Shots of tequila, puff some dro and now they ready Her girl holla out, Were best friends!

And then I holla out, Yall look like twins!

Aint no competition, yall a couple of tens!

And then they say, Kells, tell us what you wan do

Well Im about to double up with you and you Step up out the club with a dizzy head

I got two chicks both got dizzy legs

Im bout to double up

(One on each arm)

You know Im bout to double up

(I keep one on each arm) Hop off in that Phantom with the doors suicide

I got a freak in the front and a freak in the back

Im bout to double up
