Spirit Starcruiser

Pagan's Mind

I am your pulse
Delivering by machinery stalls
Implant frequency,
Terrorvision energy
Pounding sound,
See the spacecrafts comingReborn again from the Heavens
Calling my name he is risenFlying, I'm all alone
Over seas and lands
I call your name
Soaring through endless times
As I linger I decideKneel down, your kind
Rejoin, races exceed
Technical latency
discovering the enemy
Reinforce, Terra's soul is burningReborn again from the Heavens
Calling my name he is risenFlying, I'm all alone
Over seas and lands
I call your name
Soaring through endless times
As I linger I decideFlying, I'm all alone
Over seas and lands
I call your name
Soaring through endless times
As I linger I decide
Flying, all alone
Seas and lands call your name
Soaring through endless times
Seas and lands
