

# My Selfish Gene

## Catatonia

You, me and destiny  
Guess that it was never meant to be  
All you did was give me allergy  
I'm not looking for your sympathy  
You, me and destiny  
I am courted by uncertainty  
I've lost my will to live unselfishly  
Altruism stinks of fallacy  
And my selfish gene  
It fills up my spleen with bile  
And all the while  
I thought you gave a damn  
You, me and destiny  
Guess that it was never meant to be  
All you needed was some courtesy  
And I'm not waiting for an apology  
My selfish gene  
It fills my spleen with bile  
And all the while  
I thought you gave a damn  
Way back then I thought you gave a damn
