Everyone's In Love With You

Bart Davenport

Everyone's in love with you
Everyone's in love with you
But you don't seem to mind
But it must be tough when you're cleanin' up
Them broken hearts sometimes
Or maybe you just struggle through
And leave 'em where they lie
But everyone's in love with you
In love with youEveryone's in love with you
They fall down at your feet
And impale themselves knowin' full well
You'll only watch 'em bleed
And they won't stop 'til the final drop
'cause they think it's what you need
And everyone's in love
In love with youYou want everyone to want you
But you don't want anyone to need you
'cause baby you don't need toEveryone's in love with you
Or don't you think I know
The way they all light up when you show up
And you're baskin' in the glow
I'd like to say that I ain't that way
Like all your other fools
But everyone's in love with you
And I am, too
I am, too
