

Can't Find My Way

[Phil Collins](#)

I've been doing some thinking, here on my own

It's been on my mind

This debt I owe to you

I have to repay in kind

But I can't find my way

Can't find my way

Can't seem to find my way

Can't find my way

Tired and weary, I follow the path

Leads to your door

But it occurred to me, all that I have

Is already yours

But I can't find my way

No, I can't find my way

I can't find my way

Can't find my way

Oh, just to sit a while

Oh, just to sit and watch you smile

But I can't find my way

No, I can't find my way

Can't find my way

Keep the faith you say

To keep the faith I pray, oh

To be strong you say

Just follow the light

Wheels keep turning but the closer I get

The farther I seem

Peace will only come

Finding the peace within

But, but I can't find my way

No, I can't find my way

I can't find my way

Can't find my way, the way
