Radio America

The Libertines

If I get the call
I will call across Radio America
Right across America I will call
Yes I will call all across Radio America
Right across America I will call

If call I must do
To take my love my love to you

There a lovely young girl on?
And all across Africa, China and Australia
I will call

Call you down in New Mexico
In New Brighton and Tokyo
I will call

If call I must do
To take my love my love to you

For well it may hap' that these are they
Your happiest days
Oh my good old friend
I see you chanced your arm again

Red faced president
Took afternoon tea with her majesty the Queen
And they watched old films flicker
Across the old palace movie screen crying
What a shame as she slipped in the rain
The poor dancing girl she won't dance again

And they said it was a transmission
To take my love my love to you
