

Call Me Up

Wakey!Wakey!

was a time in a place when the look in your eyes was everything
little things that you did
just to win my trust
and I did not like when you heard me say that I stand by you till my dying day
and that day is yet to come
come on call me up
sea is not broken sea is not done
I'll be waiting up
thinking things over over and over
I will sing you a love song
just come on call me up
well it's all moving fast and I know nothing last
I love these days
all we got on our minds and the speed never letting up
well you know im tired but you know I'm weak and I stand by you till my dying day
now the things turn to change it is you my love
come on call me up
sea is not broken sea is not done
I'll be waiting up
thinking things over over and over
I will sing you a love song
just come on call me up
and our love
our love
skies like this it is so clear to me
it is you that I want
you and me all alone
alone
so come on call me up
so come on call me up
and I will sing you a love song
and I will sing you a love song
and I will sing you a love song
just come on call me up
come on call me up
come on call me up
