Wild Goose Chase (LP Version)

Steel Pulse

I thought the destruction
Of creation
Would be nuclear power
And radiationI thought judgement
Would come
When dem drop
De neutron bombAnd man was heading
For extinction with
With contraceptive pills
That was made to kill
Legal murder
They call abortionI thought the invention
Of robots yes yeh
All forms of life
Would eventually stopBut now dem dog gone crazy
Mass producing test tube babiesCHORUS
Oil a wild goose chase
Laws of nature they just can't face
Ambition is to mash up the place
Who shall save the human race?Chemicals in the food
To control population
intentions to build
A plastic nationCloning cats to have dogs
Human beings breeding hogs
On the moon in search of aliens
But now dem dog gone crazy
Mass producing test tube babiesCHORUS
On a wild goose chase
Laws of nature they just can't face
Ambition is to mash up the place
Who shall save the human race?These times of science and technology
This world is an unconscious lavatory
Using my people as guinea pigs
I man a fight it spirituallySoon the old will inject
Themselves to keep young
Ain't no telling what they do next
All I know that JAH must vex
0 righteous one keep in check
Thunder will roll and break wicked neckCHORUS

On a wild goose chase
Laws of nature they just can't face
Ambition is to mash up the place
Tell me who shall save de HUMAN RACE?
