

Land of the Living

[Don Henley](#)

Well, it's up in the mornin', everybody off and runnin'
Everybody got some place to be
Some people never go walkin', some people just stop talkin'
And I was slippin' away, you came and pulled me through, baby I wanna stay in the land of the living with you
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living with you
I wanna stay here with you You know we work and we worry, this old world's in such a hurry
So many things we just don't see
Some people always cryin', some people just stop tryin'
And I was slippin' away, you came and pulled me through I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you We got to do what we can now, about all this pain and sorrow
We got to live just a little, we could all be gone tomorrow
When I look at you girl, my heart rejoices
You taught me somethin', considering the choices I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
