Dream On

Herman's Hermits

Your pretty face came into view,
And then what could I do? My dream began again,
So here I go into a world where I can,
Dream on, just thinkin' of you,
I gotta dream on; that's all I can do.Now that you know how I feel for you,
It just goes to show I'll be true to you.
So here I go into a world where I can,
Dream on, just thinkin' of you,
I gotta dream on; that's all I can do.'Cause if you want me by your side,
You gotta hold your hands across the sky,
Tread the stairway through the stars,
Into your arms, into your arms,Your pretty face came into view,
And then what could I do? My dream began again.
So here I go into a world where I can,
Dream on, just thinkin' of you,
I gotta dream on; that's all I can do.'Cause if you want me by your side,
Hold your hands across the sky,
Tread the stairway through the stars,
Into your arms, into your arms.Your pretty face came into view,
And then what could I do? My dream began again.
So here I go into a world where I can,
Dream on, just thinkin' of you,
I gotta dream on; that's all I can do.I gotta dream on, just thinkin' of you.
I gotta dream on, that's all I can do.
