In The Arms Of Rain

Him

Once again
We found ourselves to be lost
Holding hands
Wile straying from the path in the forest dark
Aren't you happy
To see me crawl
Serpentine towards the sun to you
Lift the lid off your heart's casket
In the arms of rain
We'll drift along this river of sadness
'Til we feel no pain
Baby, start Hail Marys
For the secret you kept from me
Hail Marys for tomorrow's dream
In the arms of rain, we are free
Again
I fought myself and lost
Come bite the apple
And I'll crawl around your heart
I'm so happy
To see you weep along
In these arms you belong
Lift the lid off your heart's casket
In the arms of rain
We'll drift along this river of sadness
'Til we feel no pain
Baby, start Hail Marys
For the secret you kept from me
Hail Marys for tomorrow's dream
In the arms of rain, we are free
Ave Maria, we try
Ave Maria, we cry
Ave Maria, we cry
Lift the lid off your heart's casket
In the arms of rain
We'll drift along this river of sadness
'Til we feel no pain
Baby, start Hail Marys
For the secret you kept from me

Hail Marys for tomorrow's dream
In the arms of rain
Lift the lid off your heart's casket
In the arms of rain
We'll drift along this river of sadness
'Til we feel no pain
Baby, start Hail Marys
For the secret you kept from me
Hail Marys
In the arms of rain we are free
It's the end of the road, hold me
It's the end of a road and we're free
